

Action Plan Checklist

Place a checkmark beside each statement below that you will follow back on the job to keep yourself and others safe in your workplace.

Note: Depending on the industry you work in and your specific workplace, not all actions below may be applicable to you. (E.g. If you are an office worker, you don't need to know where the emergency showers are.)

- ☐ Understand the hazards of every chemical or material in your work area.
- ☐ Know where the Safety Data Sheets or SDSs are located.
- ☐ Know what to do in my day-to-day job as well as in emergencies.
- ☐ Assume that every new or unfamiliar material is hazardous.
- ☐ Always wear the required personal protective equipment (PPE).
- ☐ Ask your supervisor if you are not sure about how to use or store a chemical.
- ☐ Inspect and clean personal protective equipment (PPE) before and after each use. For instance check the fit and condition.
- ☐ Know the location of emergency showers, eyewash stations, fire extinguishers and exits in every area where you work.
- ☐ If you notice signs of chemical exposure, get help, leave the area, and tell your supervisor.
- ☐ Always wash hands before eating, and eat only in designated areas.
- ☐ Wash your hands and face often during the day and be careful not to carry chemicals home on your clothing, hands or hair.
